

DISTRIBUTION OF SIMILAR RESOURCES

Instructions

You are to create a report that contains the following:

1. Classify Mount Stirling as a resource
2. Justify the classification
3. A hand drawn map showing other similar resources at a regional scale. (you may use last years)
4. Describe how these similar resources are distributed within the region. (distribution pattern)
5. Explain in detail, the reasons why all these mapped resources are similar to Mt Stirling.
